KICK KILLS A BOY

SKULL CRUSHED OF RICHARD YAHRMARK, 3 YEARS OLD.

WATCHING FATHER PLOW

Was Only Child of Mr. and Mrs. Clarence Yahrmark, Near Swan Chapel —Funeral Today.

"Daddy" was plowing in the field across the road from the horse lot.

"Son" was 3 years old and what farmer doesn't know the consuming desire of a boy of that age to be out near where papa is working.

Richard Yahrmark, son of Mr. and Mrs. Clarence Yahrmark, was no exception and so as father turned over the sod in the field across from his house, little Richard played in the lot across the road and near the house.

Each time as the team and plow came round to that side of the field, Richard would climb upon the fence for a chat with his father. Saturday afternoon about 5 o'clock, Mr. Yahrmark stopped his team for a rest and in order to call something cheery to little son.

"What's the matter, Daddy, are you stuck," said little Dick as the horses panted.

"No," answered the father, "I'll show you. Get up." And the man and team moved on around the furrow till the field was encircled again. This time son was nowhere to be seen but a three-year old trotting horse was acting queerly in the lot near where the boy had been.

The horse had its head down and was moving round and round something. Stopping his team, Mr. Yahrmark ran across the newly plowed ground, sprang over the road fences, and found his son lying on the cobs and debris of the horse lot dying.

It will never be known just what happened but the marks upon the forehead indicated that little Richard just three years old, had been kicked in the forehead. His skull was crushed in and he never regained consciousness.

His parents who live near Swan chapel, rushed to St. Francis hospital with the boy but he died Sunday morning at 1:30 o'clock. An attempt was made by the surgeons to lift the skull but it was hopeless from the beginning. Mrs. Amelia Outs, grandmother of the dead child, lives at 318 South Main street. She was at the hospital when her grandson was brought in where she was waiting upon a daughter in the hospital.

The body of the little fellow was taken to his parents' home yesterday afternoon and the funeral was held this afternoon at the home with burial in the Swan chapel cemetery.

THE CLUB PROGRAM

NINTH ANNUAL MEETING AT ELKS CLUB TOMORROW.

E. L. PLATT BIG SPEAKER

Leading Attraction to Banquet is President of St. Joseph Commerce Club —Committees to Report.

The program for the ninth annual meeting of the Maryville commercial club which will be held in the Elks club tomorrow was announced today by W. R. Jackson. The banquet will begin at 6:30 o'clock. The principal address will be made by E. L. Platt president of the St. Joseph commerce club. The program follows:

Invocation, Rev. William Moll Case.
Music, Maulding's Orchestra.
Chalk Talk, Raymon Baublits.
Introductory address by toastmaster C. C. Hellmers, president Maryville commercial club.
Secretary's annual report, W. R. Jackson.
Review of year's work by club standing committees by committee chairmen: Finance, Joseph Jackson, Jr.; Highways, J. H. Sewell; Agriculture, Roy J. Curfman; Entertainment, Albert Kuchs; Transportation, Chas. A. Wadley; City Welfare, Dr. Jesse Miller; Business Exchange, C. W. Yehle; Factory and Commercial Interests, E. E. Williams.
Election of three new directors to succeed C. C. Hellmers, Dr. Jesse Miller and J. H. Sewell.
Transaction of other routine business.
Address, "The value of cooperation in community effort," E. L. Platt, president St. Joseph Commerce Club.
Address, Tom C. Middleton.

Mr. Platt is well fitted to talk upon the subject which he has chosen for tomorrow night. He was chairman of the publicity committee of the St. Joseph commerce club three years ago; was elevated to third vice-president of the club in charge of the industrial division of the work and then to the presidency.

He has been secretary and treasurer o fthe American Electrical company in that city for eighteen years.

HERE'S YOUR ANSWER, TARK.

Maryville Meet Not Maryville's But Northwest Missouri High School Associations.

The Tarkio Avalanche says: "The Maryville meet has been set for the day following the Tarkio meet. This seems an injustice to the Tarkio tri-state meet, in that the local meet was organized one year before the Maryville meet, and with one exception has always been held on the first Friday in May, while the Maryville meet has, until this year, been held on the last Friday of April. It looks as if the Maryville management were trying to injure the local meet."

Prof. H. P. Swinehart, corresponding secretary for the Northwest Missouri Inter-High School association, said that it was decided at the last meeting of the executive board of the Northwest Missouri Inter-High School association, which is composed of one man from each of the nineteen counties, that the meet was held too early to get the men in shape.

A resolution was then passed that the meet would be held the first Saturday in May providing the state meet was held the second Saturday in May. It was not done to interfere in any way with any other meet. The local officers at Maryville had absolutely nothing to do with changing the date.

BOOZE TIME GETTING SHORT

Fact Evidently Was Realized Saturday, for Eight Arrests for Drunkenness Had to Be Made.

Those who like their booze evidently awoke to a realization that the last saloon in Maryville will close two months from today. Saturday was an unusual night for drunks.

A record of eight arrests for the first day of the new police department and city administration was made Saturday by City Marshal John Shonley and Night Policeman Eph Tilton. All were fined $5 and costs except Bert Martin, who was assessed $1 and costs by Police Judge Robey.

The others were: James Pettit, Charles Rush, J. D. Bullock, Sam May, S. C. Younger and James Kennedy. Shonley and Tilton divided honors, each making four of the arrests.

J. S. Casteel, Fay Casteel, Joe Smith and O. E. Smith of Ravenwood were city visitors today.

CHURCH HAS WON 12

"EVANGELIST-LESS" REVIVAL TO END EASTER SUNDAY.

DR. DUNCAN LAST NIGHT

Powerful Sermon by Presiding Elder Directed Toward "One to Win One" Campaign.

The "one-to-win-one" campaign at the Buchanan Street Methodist church which has Easter Sunday as its objective day has won an average of one person a day since it was definitely begun at prayer meeting Wednesday, March 29. Someone has characterized the movement as an "evangelist-less protracted-meeting-less" revival.

The movement seeks professions of faith and church membership by means of personal work. Twelve have been reached already by the pastor and members. All are adults, five being on profession of faith and seven by church letter. The possibilities of the method are shown by the fact that the twelve have been reached by only five persons.

The Rev. C. B. Duncan, D. D., presiding elder of the St. Joseph district preached last night at that church and administered the sacrament of the Lord's supper. The third quarterly conference of the church was held by Mr. Duncan after the church service.

The sermon by the presiding elder was directed toward the "one-to-win-one" movement. "The entrance requirements into the school of Christ" might have been given as the subject to the sermon. The text was, "If any man would be my disciple, let him deny himself, take up his cross and follow me."

That Jesus Christ was the greatest teacher the world has ever known was proved by his methods and his results. The speaker said that three unlearned fisherman wrote books which have been more widely read than any other author's. They did this after three years with Christ. He observed that the books on pedagogy or the art of teaching are becoming more and more like the four gospels in the methods expounded.

What Are His Entrance Tests?

"Having agreed then that Jesus Christ is the greatest teacher, and that to be a disciple means to be a learner from the word, let us consider what is the cost of getting into the school," said Dr. Duncan. "The text gives it. But there is a great deal of misunderstanding as to what is meant by self-denial.

"Most of us think of lopping off certain habits but it is not self-denial, is it, for one to take harmful things out of one's life even if he desires them. No, by denying oneself, Christ means the surrender of one's will. That seems easy at a superficial glance but let us consider.

"If we should give up our own wills to God, should surrender that one thing which makes us as human beings capable of being beasts of little less than angels, I suspect that it would revolutionize some of our lives. It would send some of us to the slums of cities or to foreign soil. It would send young men intending to go into business of the professions, into the ministry of the church.

"And how glorious it is that we have the promise which follows the 'if' of the text. When I think how meager my knowledge, how little I am able to know what is best for me, I rejoice that there is one who knows; when I see that I have not the courage often to seek what I know is best for me because of my weakness, I am glad of my trust in One who strengthens me; when I consider that I have not the power or ability to attain what I know I should have and desire, what a tremendous privilege I feel it to be that I can throw my life and destiny out upon One who is all-powerful.

"That to my mind is the invitation held out to us when Jesus Christ said 'If any man would come after me, let him deny himself, take up his cross and follow me.'"

MISS LAUR VERY LOW.

VILLA ESCAPING INTO OWN STATE

MANY BELIEVE PURSUIT WILL CEASE THERE.

ALL DURANGO WILL RISE AGAINST U. S.

General Funston Says Chase Will Continue—Important Carranza Interview Denied.

Special to The Democrat-Forum.

El Paso, April 10.—Mexican reports state that Villa has escaped from Chihuahua and has crossed the Durango line to his native state. Villa couriers have been calling on outlaw bands for several days to join Villa and to fight the Americans.

According to Carranzistas, the Chihuahua-Durango line is the limit of pursuit by the American expedition. They claim the withdrawal of the American troops may be expected within a few days. The censored dispatches from the front say General Pershing has gone to the extreme southern front, and Sunday camped within a few miles of the American troops.

Carranza Consul Garcia, in El Paso, is quoted in an interview as authorizing statements that the southern boundary of Chihuahua was agreed upon by President Wilson and Carranza as the dead line of the American pursuit, and the agreement given out recently in Mexico City did not contain this clause, but article 7 was withheld and has not since been given out.

Villa is said to have won support of the Arricta brothers, who have three thousand troops in Durango, and are anxious to fight the Americans.

Garcia Denies Interview.

El Paso, April 10.—Carranza Consul Garcia denied this afternoon that he had ever given an interview in which he was reported to have said that the secret agreement existed between the American troops and the de facto government not to enter the state of Durango.

"Nothing to It"—Funston.

San Antonio, April 10.—General Funston, in answer to the Carranza leaders' assertion of Americans not pursuing Villa over the Durango line, said that there was no chance of the Americans being withdrawn from Mexico, and judging from all he had heard from Washington the pursuit of Villa will continue.

Carranza Co-Operating All Right.

Washington, April 10.—Carranza forces are co-operating fully with the Americans in Mexico, according to dispatches received from General Funston. A dispatch said that General Pershing had a satisfactory talk with Herrera, and expected another conference with Guitterz, Chihuahua commander.

JEALOUS NEGRO KILLS FOUR.

Fired Shots Into Crowd Entering Church in Arkansas.

Special to The Democrat-Forum.

Stuttgart, Ark., April 10.—Arthur Akers, a negro, crazed at seeing his wife talking to another man, shot and killed them both as they were entering a church. The shots he fired killed two other persons and he stabbed another negro. He is still uncaptured.

POLITICAL NOTES

(Democratic Press Bureau

In the campaign of 1914 Colonel Roosevelt said: "The people can expect nothing from the Democratic party and worse than nothing from the Republican party." Now the Colonel is seeking to take the "worse than nothing party" into the Bull Moose woodshed, makes it plead guilty to the charge, then parole it to the daddy Bull Moose upon the condition that it forsake its sins and make "my policies" the rule of its conduct. What a spectacle the G. O. P. will present whooping it up for the initiative, referendum and recall, the recall of judicial decisions and all the other isms of "my policies" it so vigorously denounced in 1912! Some dose, isn't it?

Roosevelt says Judge Hughes is a whiskered Wilson." Of course that leaves the Colonel as the only available, "Simon pure, blown in the bottle; all others spurious."

"The Democrats Should Win," is the title of an article by W. J. Bryan in which he makes a ringing appeal for the success of Wilson and the Democratic party. He frankly admits that he has differed from President Wilson on some questions, but emphatically endorses the administration in all its domestic and economic accomplishments and the most of its foreign policies. The article is a great disappointment to the Republican leaders and all others who have been hoping Bryan would either sulk or bolt following the nomination of Wilson by the 1916 convention.

"WOMAN IN 47" TONIGHT

Empire Theater's Equitable Program for This Evening is Italian Love Story.

Coming to the Empire theater tonight as the next release on the Equitable program, is "The Woman in 47," in which Alice Brady, well known to lovers of the screen drama, has the star part. The story is that of a young and beautiful Italian girl, who escapes from the tyranny of a cruel uncle, comes to this country to meet and marry her lover, and passes through a series of adventures which combine to make one of the most thrilling and absorbing photodramas ever shown on the screen before the final happy ending.

Love, honest and pure, as well as illicit and sensuous, falls to her lot, unconsciously and unintentionally she exercises a wonderful, almost weird, fascination over every man who sees her, death and disaster follow in the train of efforts to encompass her ruin. In the end she emerges triumphant in the steadfast affection of her boyhood companion. The play will hold the unswerving attention of those who see it from the start to the finish.

GUILFORD LIKE CHICAGO.

Barn Burns When Cow Overturns Lantern.

Wm. Kling suffered a big loss in the burning of his barn and contents, together with some live stock, Monday morning, between the hours of 4 and 5 o'clock. Neighbors from a distance claim they heard him call for help, and many rushed to Mr. Kling's farm, but little could be saved. The fire was caused by a cow hooking a lantern off of a nail that was supporting it.—Guilford Times.

WHY TAFT HATES BRANDEIS

Boston Attorney Showed Up Some "Shady" Work by Ex-President in Ballinger Case.

No more clarified reasoning of the causes which entered into former President Taft's hatred of Louis D. Brandeis has been printed than the summary given by the New Republic. Mr. Taft has done all he can to block the approval by the senate of Mr. Brandeis as an associate justice of the federal supreme court.

Mr. Taft's activity in the matter has been so notable that there was no question of the fact that his dislike for Mr. Brandeis was "purely judicial." It was of an offensively personal nature. Says the New Republic:

One would have supposed that ex-President Taft was the last man qualified to express a judgment on Mr. Louis D. Brandeis. For if Mr. Taft will search his memory he will remember that it was Mr. Brandeis who caught him in what is perhaps the most discreditable episode in which a president of the United States has been involved. We have no desire to rake up mud from the past, but when Mr. Taft sets himself up as a censor of manners and morals, it becomes necessary to remind him that he antedated a public document in the Ballinger case, that he deceived the public in regard to his action, that he tried to conceal his deception with a falsehood. If Mr. Taft does not like Mr. Brandeis the human explanation is exceedingly simple. It was Mr. Brandeis who demonstrated to the country Mr. Taft's immoral procedure in a disreputable incident.

POOR CROPS FOR 4 YEARS

W. L. Carpenter of Quitman, in Interview With St. Joseph Stock Yards Journal, Tells Conditions.

W. L. Carpenter, an extensive stockman and farmer of Quitman, Mo., was in today with a load of hogs of his own raising. Mr. Carpenter is represented on the local market several times a month with stock from his farm in Nodaway county. "For the last 4 years crops have not been what they should be in my neighborhood," said Mr. Carpenter.

"For 3 years we had dry weather and as a result the crops were poor. Then we had enough rain in 1 year for the other 3, so that crops were also a failure that year. I have noticed that the amount of feeding in both cattle and hogs has decreased greatly the last 4 years, as is always the case when grain crops fall short. Farmers are still optimistic and are looking for a good season this summer."—St. Joseph Stock Yards Journal.

CARE FOR BATTERIES

Then They Will Stand North Pole Temperature.

An interesting fact in connection with the proper winter care of storage batteries, is the statement of the Willard Storage Battery Co., that any one of their 700,000 batteries that is properly charged and filled, will give satisfactory starting and lighting service at 90 degrees below zero or regular north pole weather.

At this temperature the other parts of the car would be unable to perform their functions.

The company is using this as an example in teaching motorists the service they can obtain from their starter and lights in winter if the battery is fully charged and filled with distilled water at regular intervals, and to warn them of the dangers from freezing if the battery is allowed to run down.

They advise car owners to take the same care with the battery if the car is stored for the winter. Or to take the battery to a reliable service station where it will be cared for at a nominal cost.

Electric Service Brings Real Comfort

It is the little comforts and conveniences—the improved ways of doing the daily household tasks—which change houses into homes.

Electricity has a deft way of doing your housework which is both pleasing to you and most economical.

"But," you say, "My house is not wired. How can I use Electric service?"

The answer is very simple. Many finished houses right in this town have been completely wired for Electric Servce--wired without the slightest damage to walls, ceilings or decorations—without confusion or dirt.

Believing that there are still many households in Maryville which would be glad to take advantage of Electric Service, we have joined in a great, nation wide movement to wire more houses for Electric Service during "Wire Your Home" Month.

During "Wire Your Home" Month, March 15 to April 15, we will make special concessions which will make it decidedly to your advantage to have your home improved with Electric Service.

We have made arrangements to handle a large volume of business—but some delay will be unavoidable when the rush begins. So make your arrangements early. Write, phone or call today for full particulars and estimates.

Fulton Mothers Now Treat Children's Colds Externally

They Find Vap-O-Rub Better Than Internal Medicines for Croup and Cold Troubles.

Mrs. J. S. Pugh, 510 Market St., and Mrs. Mary Bolton, 105 Ravine St., both of Fulton, Mo., have found, in common with many other Missouri mothers, that it is no longer necessary to dose children with internal medicines for cold troubles. In the South Vick's Vap-O-Rub is the standard remedy for these troubles, but it was only last winter that it was introduced here. Vap-O-Rub was discovered by a North Carolina druggist. He found how to combine Menthol and Camphor with the volatile oils of Thyme, Eucalyptus, Cubebs and Juniper, in salve form, so that when applied to the body, the ingredients are vaporized by the body heat.

These vapors are inhaled with each breath, through the air passages, to the lungs, carrying the medication direct to the affected parts, and, in addition, Vick's is absorbed through the skin, taking out the tightness and soreness. This double action makes Vap-O-Rub really a remarkable remedy for many forms of inflammations. Either inflammations of the air passages, such as head colds, catarrh, bronchitis, sore throat, or deep chest colds, or inflammations of the skin tissues, such as burns, bruises, stings, piles, itchings and muscular soreness. It is particularly recommended for small children, as it can be used freely, with perfect safety, on the youngest member of the family.

But let these Missouri mothers speak for themselves. Mrs. Bolton writes—"I have used Vap-O-Rub on baby for bad colds. Results were excellent. I find it better than any internal medicine I ever used."

Mrs. Pugh's experience is—"I tried your Vap-O-Rub on three of my children for bronchitis. They would cough so hard at night I could not sleep, so would get up and rub their throats and chests with Vap-O-Rub and they seldom coughed any more that night, and after I had kept it up for several nights they stopped coughing. I believe it is better than taking so much medicine internally." Three sizes, 25c, 50c or $1.00. At all druggists.

Willard STORAGE BATTERY

It's Time to Tune Her Up

That first morning you wake up to hear a robin caroling outside your garage makes you think one thing—"I'll have to be getting at that car pretty soon."

While that thought is fresh in your mind, *get busy*. Of course you want your storage battery inspected—your whole electrical system depends upon its healthy condition.

And of course you want an expert to look at it. That's why we suggest coming to us—there's no question of our standing as battery men who know their business.

When you come in, ask for a free inspection card. It will keep your battery doing its work all the time, by correcting faults before they get too big.

PREFERRED CAVE TO LIFE IN A SOD HOUSE

Unique Home of Pioneer and Family Brought to Light.

Garber, Okla.—The falling of five feet of cement porch of a farmhouse a half mile north of Garber brings to light the unique home of a pioneer of this section.

Under this porch was a cave. The cave was dug in 1894. At a point along a little ravine a sandstone ledge cropped out, and there S. H. Peters tunneled under and excavated two large rooms, with a sandstone ledge about three feet thick for a roof. The rooms extended sixty feet under the ground, and at the deepest place there was perhaps eight feet of dirt on top. To the back room a skylight 3 by 5 feet was opened.

The rooms were plastered and white-coated, and the rock roof was whitewashed, making it light enough for one to read newspapers in any part of the cave. It was very dry at that time, and coffee kept in the cave ground easily. S. H. Peters and his family lived there many months before he built a home above ground.

The stovepipe ran up the skylight, and to persons passing along the road the smoke coming out of the ground was a novel sight. Hundreds of persons visited this cave home, and all wondered why the roof didn't fall in, as it was not supported by timbers.

When the wet years came a little spring in the cave which furnished all the water for the family overflowed the rooms at times, and in recent years when the drain became clogged the cave filled with water. The pioneer later built a house almost over the cave.

S. H. Peters was but little longer digging the cave home than was required to build a sod house of the same size. Sod houses were the first homes of most of the pioneers. The plaster was the only expense to the cave home. Today this section has the finest country homes in the state and is in the wheat belt.

Fifty-seven Years Without Vacation.

Rising Costs confront everybody!

This is an era of ascending costs, a period of price advancement without parallel. No statistical chart is needed to prove this—the effect of higher prices is *felt* by everyone, and is of real concern to all. It is a time for thoroughly weighing values, a time for taking advantage of every opportunity that offers a *genuine saving*.

You can identify CERTAIN-TEED Roofing by the name, which is conspicuously displayed on every roll or bundle. Look for this label.

Certain-teed Roofing
lowers the cost of building

CERTAIN-TEED offers a substantial saving in roof construction, at this or any other time. It costs less to buy, less to lay, less to maintain and less per year of life. Because of tremendous production (the General makes one third of all the roll roofing made in America), and because of economies effected by enormous resources, modern machinery and favorably located mills, the General is able to make the best roofing at the lowest cost.

CERTAIN-TEED Roofing is the General's own product—from the raw materials to the finished rolls, it is made in the General's huge mills. It is made of the best quality roofing felt, thoroughly saturated with the General's own blend of soft asphalts and coated with an impervious covering of harder asphalts. This keeps the inner saturation soft, and prevents the drying out process so destructive to ordinary roofing. That's why CERTAIN-TEED outlasts other roofing. It is guaranteed for 5, 10 or 15 years, according to ply. Experience proves that it lasts longer.

CERTAIN-TEED is sold by responsible dealers everywhere at reasonable prices. Investigate it before you decide on any type of roof.

Save rags—they're worth big money now!

Prices paid for rags eight times as high as a year ago.

Rags! Rags!—got any rags? You're lucky if you have a lot of old rags around the place, because they'll bring you big money now—eight times as much as you used to get for them. Last year rags sold around ¾c a pound—now they are bringing 4c a pound, and manufacturers are glad to get them at that price.

Rags form the basis of many well known products, such as writing paper, roofing etc. The roofing mills alone used a quarter of a million tons of rags last year. At present prices, this quantity of rags cost $12,500,000 more than a year ago—an increase in price of $40,000 a day for roofing.

Boys and girls!—This is your chance to make some money. Get busy and hunt up all the rags you can find. Sell them! They'll bring you good money. If you are not offered their real value, write our nearest office.
